- Support the above provisions
- Support the above provision with amendments
- Oppose the above provisions

MY SUBMISSION IS THAT

*Tell us the reasons why you support or oppose or wish to have the specific provisions amended.
(Please continue on separate sheet(s) if necessary.)*

1.) I am an environmentalist who definitely agrees our rivers should be swimmable, but I disagree with the entire approach of the Healthy Rivers plan. The goal should not be to give a bunch of beaurcratic busybodies power to tell people what they can and can't do, but to put education and ownership out into the community so people take responsibility for their own catchment areas.

Controlling land use is not the answer. The issue here is how that affects waterways – and that is all that should be monitored.

If the water on my downstream border is consistently significantly more polluted than acceptable levels, or that of my upstream border tests, I should be warned and then financially penalised. If the pollutant levels are less though than the incoming stream, I should be rewarded with a rates reduction in proportion to the financial penalties collected from polluting landowners. It's called the carrot and the stick – it's effective, simple, puts the responsibility firmly on the landowner where it belongs.

2.) This is increasing bureaucracy for no benefit. With the sum total of one milking cow who raises a calf for the freezer, I am already subject to TB registration, NAIT and totally oppose another inefficient paper trail.

I SEEK THE FOLLOWING DECISION BY COUNCIL
