I would especially like to have monitored water coming out of large bushland and water flowing in the streams of Hamilton especially the stream that flows to the north of the Hamilton's main rugby ground.
[It is one of the most polluted streams I have seen.]

State in summary the nature of your submission and the reasons for it.

State clearly the decision and/or suggested changes you want Council to make on the provision.

I would like the words continually remain in the section 5.
There is discussion about what water body is.
Leaving the word continually in, does define water body is.

Relax the rule about how steep the slope is to where fencing is required say 15 degrees.

However I would the fencing rules relaxed a bit say land over 15 degrees does not need to be fenced.
On some of my land the fencing would be difficult and divide the paddock into less than a desirable way.

That the Waikato Regional Council accept that there are costs involved with the river fencing.

Once land has been fenced off there is the cost of the fencing, cost of maintaining the fencing, the cost of supplying water, the cost of maintaining the water supply and weed control.
[I have just spent \$40/ha on controlling weeds on the river side of my river fence.]
